

Do So Much More with Sketches!

Sketches are like blueprints for layouts that offer a helping hand for how to arrange papers, photos, titles – everything – using your theme packs! Typically shown in grayscale, they let you fill in the blanks with the products in your theme packs or whatever else you happen to have. And the best part? You can follow the sketch exactly or do your own creative thing! Check out these 10 different examples and see just how easy it is to apply one sketch to a whole host of theme packs and other scrapbooking products!

HOW TO “READ” A SKETCH

The following gives examples of what each shape on a sketch layout could represent but remember – it’s up to YOU!
