HOW TO READ THE MEASUREMENTS

HOW TO CUT A CIRCLE

Step 1

Twist the white sizing dial (counter-clockwise) to loosen and slide it to desired cut diameter using the white markings. Lock it into place by tightening (clockwise).

Step 2

On a 13x13 cutting mat (sold separately), position your paper and place the Circle Cutter on top. Press and hold the sizing dial to keep it in place.

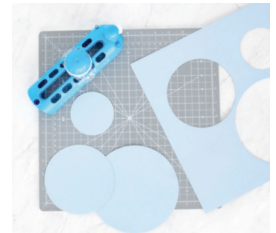

Step 3

With your other hand, push in the white button on the blade housing and press down the blade housing to engage the cutting blade.

Step 4

While pressing down the blade housing and holding the sizing dial in place, rotate the blade housing 360° to cut a circle. If needed, you may backtrack to cut any missed spots.

Step 5

Release pressure from the blade housing and sizing dial to remove the Circle Cutter from your paper.

HOW TO DRAW A CIRCLE

Step 1

Twist the white sizing dial (counter-clockwise) to loosen and slide it to desired circle diameter using the gray markings. Lock it into place by tightening (clockwise).

Step 2

Place the Circle Cutter in desired location on top of paper. Press and hold the sizing dial to keep it in place.

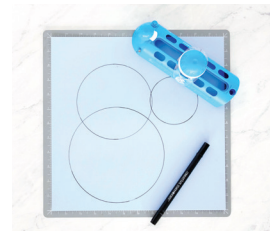

Step 3

With your other hand, insert a CM Pen (fine tip only) into the pen holder.

Step 4

While holding the sizing dial in place, draw a circle with your pen by rotating it 360° over your paper. If needed, you may backtrack to fill in any missed spots.

Step 5

Remove the pen and release pressure from the sizing dial to remove the Circle Cutter from your paper.

HOW TO REPLACE THE CUTTING BLADE

Step 1

Press the blue button on the blade housing to swing it open.

Step 2

Pull out the old blade and replace with a new one — orientation does not matter.

Step 3

Close blade housing.
